Hi!

Sending notes so I don't forget...

Ashley to look for dodgeball screaming photo.... I think they actually made a video of this too... or an audio track. And looped it. It's coming back to me now. I'm remember someone re-mixing it. [REDACTED] did the remix I think and they kept playing me screaming bloody murder and laughing hysterically. I don't know if I ever had a copy of it myself though — but I did cry to Venkat or [REDACTED] and they demanded everyone delete every copy of it and stop tormenting me. Rob, Brad, and [REDACTED] had sent it out to the team via iMessage if I remember right.

To do next week — Ashley to add the actual emails with metadata for 2016- Product Defect Whistleblowing & 2016 -Retaliation and Constructive Termination #2 files

I updated the folders with tags for everything we discussed, the stuff we put aside (Jenna's reviews & workplace safety), and the background folders I briefly summarized (employee stuff/reviews, whistleblowing & protected activities).

Looks like for next week we have these left: <https://apple.ent.box.com/folder/141043943461>

- 2017-21 Sexist Culture in PSQ
- 2018 - Hostile Work Env
- 2018-21 Sexual Comments
- 2019-2021 Failure to address Hostile work env
- 2019-2021 Hostile work env
- 2021 - retaliation, IIED, Constructive Termination #3

Since we covered all the SWE stuff, feel free to start talking to witnesses I mentioned if you'd like while I'm out.

Back 7/27! Talk to you then!

-Ashley
